

Directions: Shake well before use.

Apply full strength unless otherwise directed. Treat only the affected area.

Hard surfaces: Spray and let dry. If possible, cover area with plastic to allow further penetration before evaporation.

Fabrics: Always test for colorfastness in a hidden area. Wait 72 hours for results, then, dilute with 5 parts warm water using enough to reach the problem. User bears sole responsibility if discoloration occurs in fabrics or carpets.

Pets: Dilute **No Odor** 50/50 with your shampoo, use immediately. Massage into skin, leave on for 5 minutes. Rinse, re-apply if necessary.

Skunk: Push nozzle under fur to the skin. Soak fur and massage into the skin. Facial areas, apply with sponge. Use a cotton swab inside nose. The nose will usually require multiple applications. Avoid contact with eyes. **DO NOT RINSE.**

Washing machine: Use 4 oz. of **No Odor** and warm water, nothing else, or add it to automatic dispenser.

IMPORTANT: If anything else was used prior to **NO**, or if you are not sure, mix 2 drops of mild liquid dish detergent with 3 heaping tablespoons of baking soda to 1 quart of warm water. Saturate area with solution, wait 30 minutes. Sponge up remaining liquid; now apply **No Odor** as directed above. The same method should be used on your pet for skunk odor removal if **No Odor** is not the first product used.

FOR EXTERNAL USE ONLY

Triple-Pet
FOR BETTER PET HYGIENE

NO ODOR™

Permanently Destroys Odors On Contact!

DESTROYS Dog & Cat Odors plus
the smells of Urine • Cat Spray • Feces • Skunk • Hairballs
Pet Cages • Vomit • Small Mammal Odors!

Guaranteed to Work - Money Back
Use on Pets • Fabrics • Hard Surfaces
Safe • Easy to Use • Works Fast

1 qt./946 ml

Hypo-Allergenic • Non-Toxic
Odorless • Non-Masking
Non-Staining • Safe

No Odor™ really works! Its scientific formula completely eliminates odors on pets, fabrics, and hard surfaces. It may also be used on virtually anything organic. Try **No Odor™** in your garbage can, shoes, boots, sports equipment and even your refrigerator!

No Odor™ completely destroys sulfur and ammonia based compounds on contact. Odors will not return on humid days, or when your pet gets wet. Unlike enzyme based formulas which stop working after a few minutes, **No Odor™** keeps working progressively on the broadest range of the pH scale.

Ingredients: Purified Filtered Water, Anthium Dioxide, Igepal (surfactant), Yucca Schidigera, Mint Oil, Sodium Benzoate
